What we do as God's Work Our Hands Storytellers

- Share stories of the ministries of the Northeastern Pennsylvania Synod and the Evangelical Lutheran Church in America with members of congregations in an effective and compelling manner.
- Thank the people of the Northeastern Pennsylvania Synod for their continued financial mission support to the ministries of the larger Church

Benefits to Congregations:

- Members are helped to look beyond the congregation and see how they are connected personally to mission and ministry around the world.
- Members understand their identity as partners in the wider church, becoming strong advocates for the mission and ministry we share beyond the congregation throughout the NEPA Synod and the Church-wide organization.
- Visits can be arranged for a Storyteller to visit with your congregation to share stories during the sermon time, Temple talk, in a Sunday School presentation, at a Bible Study class, or at a Congregational Council meeting.

Stories of Faith in Action

Faith in Action stories from the Northeastern PA Synod highlight inspiring examples of how our congregations and organizations are living out their faith in dynamic ways. These stories showcase how they are embracing the principles of *Growing Young and following Jesus' example of loving, healing, and engaging with others*. Does your congregation have a story to share? Please send the story to the contact information listed above or use the digital form on the website, under Faith in Action.
